 - duration of, 75
 - implementation difficulties and, 70
 - mitigation under, 60

BCCP. See Balcones Canyonlands

Ben Cone HCP, 7

- analysis of, xiv-xv, 106-107
- authorized take in, 17
- duration of, 75
- public input in, 44
- translocation under, 68

Biological monitoring, vii, 16-17, 33-37

Biological standards, 59-61

Biological surprises, contingency funding for, 51-52

Black-capped vireo

- conservation plan for, xiv-xv, 103
- preserve design for, 18-19

Blackhawk - Pacific Gas and Electric HCP. See Pacific Gas and Electric - Blackhawk HCP

Blunt-nosed leopard lizard, 65

- conservation plan for, xiv-xv, 100

Brandon Capitol HCP, 7, 63

- analysis of, xiv-xv, 105
- land exchanges under, 67
- mitigation under, 61
- public input in, 44

C

Callippe silverspot butterfly

- conservation plan for, xiv-xv, 21, 99
- preserve design for, 18
- recovery plan for, and habitat conservation plan, 55-56

Candidate conservation agreements, 9, 61

- definition of, 2

- Cave invertebrates
 conservation plans for, xiv-xv
 preserve design for, 18
- Clark County HCP, 7
 analysis of, xiv-xv, 100-102
 funding for, 48, 50
 contingency, 52
 mitigation under, 60
 population survey in preparation of, 59
 public input in, 44
 and translocation, 31-32
- Clinton Administration
 and candidate conservation agreements, 9
 and habitat conservation plans, iv, vi
 and no surprises policy, vi-vii, x
 and pre-listing agreements, 5
 and safe-harbor agreements, vii, 4, 8
- Coastal California gnatcatcher, 10
 conservation plan for, xiv-xv, 14, 100
 effect of listing on, 64
 4(d) rule for, 62
 Natural Community Conservation Planning program and, 10
- Coastal sage scrub ecosystem, in California, conservation of, 10, 14
- Coleman Company HCP, 77
 analysis of, xiv-xv, 102
 incidental take under, 58
 mitigation under, 60
 public input in, 44
 and translocation, 31, 68
- Conservation planning, 13-76. *See also* Habitat conservation plan
 advent of, 4
 coordinating use of private and public lands under, 66-68
 ecosystem-based approach to, 9-11
 concerns about, 11-12
 geographic scope of, 13-14
 habitat-based approach to, 3, 11
 multiple-species planning under, 21, 23-25
 impact of, viii
 incorporation of science into, 77-80
 multiple plans in species' range and, cumulative effects of, 56-58
 types of, 4-5
- Conserved areas, design of, 13-20
 positive examples of, 17-20
- Contingency funding, provisions in habitat conservation plans, 50-52

I

- Implementation, of habitat conservation plans, problems with, 68-72

Implementing agreement, 71

Incidental take

and 4(d) rules, 61-62

mitigation/minimization of, 17, 58-63, 82-84

population surveys and, in preparation of conservation plans, 58-59

quantification of, 58-59

Incidental take permit(s)

approval of, 6

and Ben Cone habitat conservation plan, 17

definition of, 2

and habitat conservation plans, 4, 6, 20

implementing agreements and, 71

and Multiple Species Conservation Program, 23-24

and potential cumulative effect of multiple plans, 56

for red-cockaded woodpeckers, 49

and San Bruno Mountain habitat conservation plan, 4

and Washington Department of Natural Resources habitat conservation plan, 22

Independent science, and conservation plans, 37-40, 95

Informal consultation, and habitat conservation plans, 37

J

Jeopardy, definition of, 2

K

Kangaroo rats, conservation plan for, xiv-xv, 100

L

Land exchanges, and conservation planning, 67

Landscape connectivity. *See* Corridors, wildlife

Legal issues, and conservation planning, 13, 52-76, 82-84

Leopard lizard, conservation plan for, xiv-xv

Local governments, role of, in conservation planning, 63-66

Longleaf pine forests, decline in, 32

Louisiana black bear, 42

conservation plan for, 27-28, 103

enforcement of, 73

4(d) rule and, 28, 62

Louisiana Black Bear Plan, 11, 63

analysis of, xiv-xv, 103-104

funding for, 48-49, 82

preserve design, 14

public input in, 41, 81

Low-effect habitat conservation plans

exclusion of under National Environmental Policy Act, 47

multiple, potential cumulative species loss under, 56

public input and, 47

Lower Colorado River conservation plan, 101-102

habitat management under, 25-26

M

Management techniques, in habitat conservation plans, 25-33

adaptive, ix, 26-27

negative examples of, 28-33

positive examples of, 27-28

Marbled murrelet, conservation plan for, xiv-xv, 97-99

Massachusetts Division of Fisheries and Wildlife HCP, 7, 63

adaptive management techniques under, 27-28

analysis of, xiv-xv, 107-108

biological monitoring under, 34

funding for, 48

government regulation of, 63

implementation of, 70

minimization under, 60

public input in, 44

and relationship with species' recovery plan, 55

Metropolitan Bakersfield HCP, 7

analysis of, xiv-xv, 99-100

biological monitoring under, 36

funding for, 48, 65

government agencies and, 65

urbanizing jurisdictions under, 64-65

Mission blue butterfly, 69

conservation plan for, xiv-xv, 21, 99

preserve design for, 18

recovery plan for, 55-56

prospects of, 52

Mitigated environmental assessment, 47

Mitigation, of incidental take, ix, 6, 17, 58-63, 82-84

potential impact of, 47

Mojave Desert tortoise

- conservation plan for, 100
 - and contingency funding, 52
 - population survey in preparation of, 59
 - translocation and, 31-32
- MSCP. *See* Multiple Species Conservation Program
- Multiple Species Conservation Program, viii, 11, 77
